

Czech Bartenders Association

Dear presidents, Dear IBA friends,

Let us inform you about the jubilee **10thWorld Championship in mixing non-alcoholic cocktails under the auspices of International Bartenders Association in Prague – Mattoni Grand Drink 2019**. We have finished right now the preparation of the rules and program for this event and here we are with the last and updated information.

The place of the competition is Prague, Czech Republic and the date is June 7 – 9, 2019. The location is the same as last year – in the middle of Prague at the Old Town Square.

As every year also this time we did some improvement and prepared special changes in the competition. The competition will be a part of the big music performance of the best Czech music groups and there will be always a panel of competitors performing in the middle of the break with changing the musicians. It is expected to be visited by several thousands of people coming to see the performance of the best World Bartenders and best Czech musicians working together in this imposing place in Prague.

There is a new rules added to the event flow this year – Every competitor after finishing his performance on the stage will continue in the so called **Bar street** (situated just next to the main stage) with presenting his cocktail to the visitors.

See all the other details in attached rules. The rules are enough and sufficiently explained but still if you need more explanation let us know we will get back to you immediately.

Let us also remind you that this competition will be a part of the **World Day of the Non-alcoholic cocktail** which was announced by IBA and also the IBA is a proud patron of this day.

So read the rules carefully and do not hesitate to contact us on mattonigranddrink@cbanet.cz with any question you may have.

Nice greetings from Prague and we are already looking forward to meet you here in the heart of the Czech Republic and spend a nice time together.

Warm & friendly regards

Ales Svojanovsky
President
